### Tutor's general comments and assignment feedback

Strengths	Development needs
-----------	-------------------

Criteria	Met	Criteria	Met	Criteria	Met
P1	<input type="checkbox"/>	M1	<input type="checkbox"/>	D1	<input type="checkbox"/>
P2	<input type="checkbox"/>	M2	<input type="checkbox"/>	D2	<input type="checkbox"/>
P3	<input type="checkbox"/>	M3	<input type="checkbox"/>		<input type="checkbox"/>
P4	<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>
P5	<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>
P6	<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>

To gain a pass, all pass criteria must be achieved; to gain a merit, all pass and merit criteria must be achieved and to gain a distinction, all pass, merit and distinction criteria must be achieved.

Grade awarded for this completed unit:

<b>Assessor's Declaration</b>		
I certify that to the best of my knowledge the work submitted by the learner named above is original and has been completed independently.		
Name of Assessor:	Signed:	Date:

P1: Describe the various types of threats to organisations, systems and data

P2: Describe the potential impact of four different threats

M2: Explain the operation and effect of two different threats involving gaining access to information without damage

Scenario

You have been appointed as a security consultant to a new small bricks and clicks company. They have asked for you to create a policy document for the companies security.

To help you to do this:

1. Create a table listing all the various types of threats to organisations, all their systems and all their data. In a second column, describe in detail the nature of the threat in some detail. Reference this in a third column
2. Choose 4 of these threats above and describe in detail the consequence of the threat and what can be done to eliminate this. Create a set of guidelines of what can be done to eliminate or reduce the threat.
3. Choose two of the threats from the list that do not damage your system and explain how they can damage your company.

How do these threats work? What effect do they have on the company's systems if they do not damage them? How do these threats cause problems for the company?

# Student Checklist

- To obtain a particular criterion you must produce the evidence as stated within the assignment.
- Complete this page by indicating which criteria have been attempted and the page number within your report where the evidence can be found.

	What you must do	Done?	Page #
P1	<p>You are required to hand in the following:            Front Cover            Create a table of all the various types of threats to organisations, systems and data ensuring that you have covered them all            Ensure that you either write down the URL of the web sites you are using (in a third column)            Ensure that you reference any material you have used, by using Harvard Referencing.            Write down your search criteria for the search engine.</p>		
P2	<p>Choose 4 of these threats from the list            Describe in detail the consequence of the threat.            What can be done to eliminate this threat.</p>		
M2	<p>Choose two of the threats from the list that do not damage your system.            Explain how these threats can damage a company</p>		

# Grading Criteria Feedback

**PASS** : To achieve a Pass grade you must achieve all of the Pass criteria

	Description of Evidence Required	Assessor's Comment	✓
P1	<i>Describe the various types of threats to organisations, systems and data</i>		
P2	<i>Describe the potential impact of four different threats</i>		

**MERIT** : To achieve a Merit grade you must achieve all of the Pass criteria and all the Merit criteria

M2	<i>Explain the operation and effect of two different threats involving gaining access to information without damage</i>
